Election of District Officers M.W.U. of C. on Monday Next

Wm. J. White of Coleman, Candidate for President Against Jas. Sloan of Lethbridge.—Communists Active Trying to Obtain Control

On Monday, Aug. 18, the election will take place of officers for District No. 1, Mine Workers' Union of Canada, for a period of two years.

There are 21 candidates for seven officers, and the election is a contest between the Communist element and the loyal members of the U. M. W. of C.

A Coleman man, Wm. J. White, is running against Jas. Sloan, of Lethbridge, for the office of president. He is well known and is favorably looked on in the mining towns of the Crow's Nest Pass, and will likely pull a big measure of support.

For the office of secretary treasurer, M. Carmichael of Canmore, is opposing the present secretary, Major Hyslop.

The full list of the candidates follows:

For president, Jas. Sloan, of Lethbridge; Wm. J. White of Coleman.

For vice-president, Augustus Cacchioni, Nordreg; Maurice Ludwig, Bellevue; Joseph Pontorillo, Coalhurst; Hugh Williams, Nordreg.

For secretary treasurer, Malcolm Carmichael, Canmore; Major Hyslop, Coleman, (present secretary); For Board member, Archibald Fraser, Coleman; Evan Morgan, Blairmore.

For Tellers (three to be elected) August Baceda, Lethbridge; Steve Hagan, Mile 32; Jas. Beveridge, Nordreg; John Blake, Canmore; Wm. M. Chapman, Coleman; John Price, Bellevue; M. Raskevich, Coalhurst; Ivor Rundle, Nordreg; Thomas Slemko, Nordreg; Peter Trochon, Luscar; Geo. Worman, Wayne.

Additional interest is centred on this election because of the activities of the Communist Party of Canada in the mining towns. The Communist party have sent into this province a number of men who without any knowledge of mining, having never been employed in the industry, have endeavored to set up a new organization under the guise of the Unity League. The name is but a disguise to disrupt the organization of the Mine Workers' Union of Canada and the American Union, and presumably to gain control of the miners in all the mining towns.

How far this influence extends will be indicated by the result of Monday's election.

Suggestions for War Memorial

At a meeting recently held of the War Memorial committee, it was suggested that the vacant space at the town hall, part of which is a lawn and flower garden, be improved by additional planting to include the entire space, as this is considered the most suitable place for the memorial. If this were improved back to the lane, it would make a pleasant spot and would have the advantage of being under the care of the caretaker at the town building. A large number of people would be pleased to see action taken on the proposal.

E. C. Clarke and B. Eyesacker motored to Banff to visit the former's sister, and called at Ponoka on the way home to visit his brother.

Mining Men to Gather at The Pass

Mining men from east and west will renew old acquaintances on September 2nd, when members of the Canadian Institute of Mining and Metallurgy will gather at The Pass on the occasion of the annual western meeting, which is being held this summer in the first city of the North.

Headquarters for the visiting mining men will be a Canadian National Railway train which will provide sleeping accommodation together with dining facilities while the conference sits. Side trips to Sherridon and Flin Flou will be made and the Sherritt-Gordon and the Hudson Bay Mining and Smelting Company mine inspected.

Scouts Had Delightful Week

Coleman Boy Scouts returned last Saturday from a very pleasant week's camping at Waterton Lakes Park. They visited Bertie Lake, Cameron Lake and other interesting spots in the park, making daily hikes, under the direction of Assistant Scout Master Harold Turner, who supervised the camp. The provincial Scout commissioner visited Coleman Troop while in camp, and at Pass Creek, some distance from Waterton, there were 1500 at a Father and Son camp, which included Scouts from many places in Southern Alberta.

During the stay of the Boy Scouts at camp at Waterton Lakes Park, Scouts Borden, Richards, Janosak and Gardiner passed their swimming tests, 50 yards being the qualifying test.

Cord of Thanks

The executive of the Boy Scouts appreciate the kindness of the International Coal & Coke Co. Ltd. in furnishing transportation free of cost for the Scouts and their return to Waterton Lakes and return, which considerably lightened the expense of their week's camp at this beautiful summer resort.

New Polish Parish

In this town has been created a new Polish Catholic Parish under the name of Our Lady of Czestochowa, under the jurisdiction of Rt. Rev. J. L. Foltynski, bishop of the Polish Catholic Church of Canada.

The first meeting was held last Sunday at which was elected the committee for the parish as follows: Frank Tarabula, president; Ladislav Chuchla, secretary; Wincent Smolk, treasurer; Rt. Rev. J. L. Foltynski, rector.

In due time the committee will be enlarging.

At the present time services are held in the home of A. Krywolt at the following hours: Sunday, 8 a.m., low mass; 10:30 a.m., high mass and sermon; 4 p.m., vesper and sermon. Daily mass at 8 a.m., and from 9 a.m. to 11:30 a.m., during school holidays, is school for the children of Polish language.—Contributed.

"The Vagabond King" a Fine Play

Featured as the star attraction for Aug. 25, 26, 27, at the Palace, this talkie has been screened at leading theatres in London and New York at prices three and four times the admission charged in Coleman, as reference to newspapers will show. Local theatre-goers are fortunate in being enabled to see the high class features at such low prices, and "The Vagabond King," starring Dennis King and Jeanette MacDonald is highly commended as the week-end attraction.

Mr. and Mrs. Ford left on Sunday for two weeks vacation, going by car to the coast.

Local and General News Items

Chas. Makin and family returned on Saturday from a month's holiday trip to Victoria and Vancouver.

Miss Mary Homan has returned to her duties at the Coleman Cafe, after spending two weeks holidays.

Mrs. Harry Boulton and Foe are spending the week visiting at North Fork ranger's station with Mr. and Mrs. William Antle.

Members of the Italian fraternal lodge marched to the cemetery on Sunday, and deposited flowers on the graves of departed members.

A Chinese gardener from Cranbrook came to town last Friday with a heavy truckload of vegetables. He stated business was quiet at his end of the line that he was looking further afield for business.

The swimming hole near Crows Nest, in the upper lake, is much warmer than Crows Nest Lake, and a number from town have enjoyed a plunge there during the hot spell.

Mr. and Mrs. Jas. M. Allen and Jimmy left on Sunday by car to spend a holiday with relatives at Rocky Mountain House. Mr. and Mrs. A. Beveridge accompanied them to Calgary, where they are visiting.

F. W. Guerard, Wilbert Cox, J. Howarth and Arthur Kirkby made the ascent of Crows Nest Mountain on Sunday from the northeast side, and some fine photographs were secured. They did not travel up the "chimney," and made very good time.

N. P. Eastwood (Bob the Tailor) returned on Monday morning from six weeks vacation spent in the Eastern States and Eastern Canada. He has a healthy coat of ten and despite the hot weather experienced is in perfect health and ready for business again.

Mrs. Fleak, of Chicago, sister of Mrs. G. R. Powell, and her daughters, Miss Fleak, and Mrs. Eggers, arrived this week to visit. They motored to Winnipeg, and from there came to Coleman by train. This is their first visit to the Rockies, and they are quite favorably impressed with the scenic beauties of the district.

Four of Mr. Moser's pupils in violin have been awarded Dominion medals for proficiency in their respective grades, namely: Louis Fairclain, John Colough, Jess Cruickshank and G. Kerr. This is quite an unusual distinction and reflects great credit on the pupils and their tutor. The exams were held under the direction of the Toronto Conservatory of Music.

Mrs. A. E. Guerard of the New Coleman Hotel received a telegram on Friday evening informing her of the serious illness of her brother, Thos. Henderson, at Butte, Mont. She left on Saturday morning by train, travelling via Spokane, but he had passed away an hour before she reached there, at 2:30 p.m. on Sunday.

The flight of homing pigeons from Shelby, Montana, on Sunday, was very successful, all pigeons returning. Roughhead also had two Lethbridge pigeons in addition to his. The results were Anderson's "Blue Upright" first; Pryde's "August Dun" second; Roughhead's "Black Knot" third; Makin's "Pride of the Crow" fourth; Sudworth's "Rain in the face" fifth; Dewar's "Mountain Dew" sixth.

Miss Edith Hay-om has been attending summer school for teachers in Edmonton.

Mickey Hennessy's success in catching ten trout is attributed to the change in Government.

Some very fine sweet pea blossoms were left at Antrobus' Shoe Store by Harry Huston of Hillcrest, which have been much admired by callers there.

Brick Bell went to Calgary by car for the week-end, Mrs. Fairfull accompanying him where she will take up residence with her daughter Peggy.

Mrs. C. W. McKinnon and daughter Grace have left for several weeks vacation with relatives and friends in Ontario.

The treasure hunt and weirer coast on Tuesday evening was taken part in by about forty young people, who had a glorious time judging by the sounds of revelry by night.

Thos. Grisak, miner at McGillivray mine, was seriously injured on Friday, being struck by a mine car and forced against the wall. His jaw was fractured and he was badly bruised about the body.

Who was the philosopher who said something like this?—If you earn \$20 a week and spend \$19.00, you will be happy; if you spend \$20.25 a week you will surely go into debt and be unhappy.

Mrs. John Rogers, who has been visiting her daughter, Mrs. W. Hoggan, left on Tuesday morning for Creston, where she will go into hospital for treatment. Mr. Rogers left a week previously with his son John by car, to spend a holiday on the Arrow Lakes, and he will later return to South Sloca, where he and Mrs. Rogers have been living since their removal from Coleman in July of last year.

Improvements at West Coleman school include the erection of a substantial fence by Contractor D'Appolonia, and painting by Geo. H. Graham. Chairman Snowdon of the school board has in view the planting of shrubs and trees, and in this he will undoubtedly have the support of the public, for it will give an attractive appearance to the school and grounds, and set as an incentive to householders living in the vicinity to beautify their properties.

Roaming Cow Costs Owner Fine and Costs

A cow belonging to Thomas Hudz, a citizen of East Coleman, would appear to have a sense of humor. Last Thursday at 6 p.m., just about the time Constable Houghton would be sitting down to enjoy the comforts of home and garden, Hudz's cow pushed its head over the hedge, and in a tantalizing manner proceeded to chew off the tender shoots of the caragana bushes and other foliage. Mr. Houghton promptly spied it, and immediately he started to catch it, it began to wander off towards home. It reached the vicinity of its home, but instead of turning in at its gate, it went around the block three times with Mr. Houghton keeping a close check on its movements. After awhile the owner came out to speak to the cow, and of course identification as to ownership was proved. The sequel was that Mr. Hudz appeared in court next day and paid a fine and costs for allowing the cow to roam.

The Salvation Army

Park at Crows Nest Lake Being Considered

Provincial Parks Board Propose Inspecting Crows Nest Lake Area in Advice Received

Coleman Board of Trade has for several years advocated the setting aside of land at Crows Nest Lake as a public park, and with the decision of the Provincial Parks Board to establish parks in various parts of the province, the scenic attractions of this district have been urged as a good reason for establishing a park at the lake. Its accessibility by rail and auto highway and proximity to pure water supply and power line makes it well worthy of consideration as a place for a project of this nature.

H. T. Halliwell, president of the Board of Trade, during last year and this corresponded with the Parks Board, and the following letter was received from Horace L. Seymour, director of town planning, relative to a proposed visit of the Parks Board:

Edmonton, Aug. 9, 1930.

It is the intention of our Provincial Parks Board to visit the south country during the week of Sunday, August 10th, and with our present plans we expect to be in your vicinity on Saturday, August 16th. Mr. J. D. Robertson, Deputy Minister of Public Works is Chairman of the Parks Board, and I have told him that I would notify you of our visit. It is difficult at this time to say exactly when we will be in inspecting Crows Nest Lake, but will try and phone you on Friday, August 16th, advising you more definitely of our plans.

Yours very truly,
Horace L. Seymour,
Director of Town Planning.

Last Thursday afternoon members of Minerva Chapter O. E. S. met at the home of Mrs. Geo. W. Dickson to bid farewell to one of their members, Mrs. Fairfull, prior to her departure for Calgary to live. As a parting token of affection a ritual was presented on behalf of the Chapter. Pretty garden flowers graced the table, which were donated by a few of the sisters.

J. Montalbetti, assistant electrician for Coleman Light & Water Co., was injured on Saturday morning when a pole he was working on on Fourth street broke and threw him to the ground, fracturing a leg. He was in hospital here till Monday, when he was sent to Calgary for treatment.

Mistakes

Glancing through a magazine recently the writer's attention was attracted by an article bearing the same title as appears at the heading of this column, "Mistakes." It was a short article, but two paragraphs in it stood out as important and worth-while, worth passing on for the consideration of those who read this column from week to week.

After rectifying mistakes made by "Great Men of Business," and the different ways in which they react to them, the article in question offered comment:

"Looking back over history, it would seem that mistakes, of themselves, are comparatively unimportant. All men make them. The important thing is how a man acts afterwards."

There is sound philosophy in that observation. It is deservingly of more than passing attention.

All people make mistakes. Not one of us is infallible. The real test is: Do we profit by them? Do we use them as stepping stones to real achievements, to the winning of success? Or are we embittered by them; discouraged; inclined to give up and let go?

When a business man makes a mistake, jeopardizes, even loses, the savings and accumulations of a life time, and then begins to think of throwing up the sponge, contemplates suicide, or some other rash act, it is a confession that he was not really a big man after all; that he is lacking in stamina, will-power and true courage.

Experience is a hard taskmaster, a bitter teacher, but—it is a teacher, and a good one at that, because it is through experience that we do learn. It is not the manufacturer who, through mass production, is turning out an enormous volume of products who is the truly successful man and a benefit to his country; the really successful man is he who is producing quality products. Nor is it the farmer who is operating several sections of land in a more or less indifferent way who, in the long run, will prove successful; it is the farmer who is farming intelligently, striving to raise the best quality of grain, the best grade of stock, poultry and dairy products, with trees and flower and vegetable gardens, who is establishing a real home, making a lasting contribution to his country, and a success in his life work.

But to return to our theme, "Mistakes." All men make them. Do not be discouraged by yours. Remember, the important thing is how a man acts afterwards.

This is a comforting thought. You can retrieve your mistakes. If you had always been right during the past five or ten years you might be much better off financially today than you are. But you have those experiences to guide you now, and you can profit from them if you will.

But, and here let us quote the second outstanding paragraph in the magazine article which has been mentioned. It reads in part:

"Don't make the most serious mistake of all, that is to think about your mistakes."

Forget them, except to profit by them. Don't brood over them; don't let them discourage or embitter you; don't weaken; don't regard them as irretrievable disasters. Be up and doing; forget them; use them to rise to greater heights and a larger success.

Would Deport Communists

U.S. Congress Is Urged To Take Necessary Steps

Representative Hamilton Fish, Jr., in a radio address from New York, urged that congress take appropriate steps to deport all alien agitators and Communists affiliated with the Third International.

"We have tolerated them and their criminal activities too long," he said. "Let them go forth, or be deported back to their native land."

Congressman Fish, who is chairman of the special committee investigating Communist propaganda in the United States, asserted that what the Communists want to do in Russia is solely the business of the Russian welfare.

"What the emissaries of the Soviets do in the United States of America, however, is our business," he added.

Time Element In Cancer

Different Periods Of Life Have Bearing On The Trouble

A curious time element in cancer is described by Sir George Lenthal Cheate, British cancer authority. He is chief surgeon of King's College Hospital, in London, England, and is attending the British Medical Association meeting in Winnipeg.

There is one time when previously harmless stages of growths are likely to become cancer rather suddenly. This is in the same relative period of life for both men and women.

"It suggests," Sir George said, "that either some fresh, as yet unknown factor or agent may enter the body just at the critical time and cause cancer, or that the different parts of the whole cycle for a continuous process, and one part passes naturally from one stage to the final catastrophe of cancer."

"The first stage is most prevalent from the late twenties to the thirties, the second stage takes form in the late thirties and early forties. The change into cancer occurs in the late forties and early fifties of life."

Guard Baby's Health in the Summer

The summer months are the most dangerous to children. The complaints of that season, which are cholera, infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he for ill. The mother must be on her guard to prevent these troubles, or if they do come, to act suddenly and vigorously. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They soothe the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from Dr. W. Williams' Medicine Co., Brockville, Ont.

Repair Brock's Monument

New Arm and Hand Piece Placed In Position

Brock's monument is again entire, and the great arm and hand point out over the lake toward the northern shore. Recently Hon. George S. Henry, Minister of Highways, and government members of the Niagara Park Commission, made an inspection of the finished job, and the scaffolding was removed.

Carved out of a single stone weighing three tons, the massive arm and hand piece was placed in position.

The old arm was taken to Hamilton and wired together to serve as a model for the new one. The old arm was broken in a storm two years ago.

It Will Prevent Ulcerated Throat

At the first symptoms of sore throat, with pressed ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Large Organ In Paris

Having 4,800 pipes, one of France's largest pipe organs was recently dedicated in the huge Salle Pleyel, a concert hall in Paris. The instrument has 71 stops. Its concealed machinery is controlled by 750 wires contained in one cable connecting the organ with a chamber under the stage.

Put To Strange Use

"It's a funny use to make of it," commented Dr. C. H. Best, co-discoverer of insulin with Dr. F. G. Banting, on the report that the London Society for the Study of Infertility is using insulin for the treatment of delirium tremens. Dr. Best explained that an overdose of insulin is equivalent to an overdose of alcohol.

NOTES AND COMMENTS

Concentration is a strong factor in accomplishment. Many individuals are good at doing many things, but excel in none. School students incur criticism quite often because they fail in certain subjects. There is a wide variety of subjects studied during the year, and the student who passes with honors in all subjects is well worthy of the credit he, or she, receives.

Thomas A. Edison's recent questionnaire to determine the brightest boy in America excited wide interest and much publicity. The question that tickled popular fancy was that asking what a boy, as leader of an expedition in a desert, would do to save members of the party when death from thirst and starvation threatened.

Action in circumstances such as this would be taken after due reflection. In a case of sudden peril, action would be taken on impulse, and there would be no opportunity to reflect as to the proper action. Many will remember that hero officer of Scott's ill-fated Antarctic expedition, who rather than encumber the rest of the party, walked out into the blizzard and died. In this Edison question, 99 per cent. of adults would hesitate to give an answer, or frankly admit they would not know which of the party should be chosen to seek safety. The greatest factor to consider would be the personality and resourcefulness of those caught in such a predicament, and to determine beforehand who should be chosen would possibly result in picking those least capable of reaching safety.

Many would say, why bother with such a question when there is not the remotest chance of being stranded in a desert?

Which reminds one that many subjects taught at school are not thought of again when the student goes forth into the world to earn a living. But the curriculum is undoubtedly based to give instruction in subjects that may be of value. Algebra appears to be the stumbling block to most Coleman students, yet how many present-day adults who may have studied this subject during their school-days could give the answer to a problem, or work out a problem in decimal fractions? So rarely are they used that the majority of people forget their existence. Therefore, do not be too critical of the students if they fail in subjects which older people once studied, yet could not solve problems in these subjects.

Some of the so-called "dumbbells" in school life often surprise one by developing into brilliant successes as business men. There is a situation to ponder over. It may be that when they choose their vocation they apply the power of concentration and exclude what they consider non-essentials to their own particular problems. Individual thought governs—not merely what we learn from others.

Main street stores suffer from dust at all seasons, it matters not if there is an east or west wind or no wind. Doors are closed to prevent the stock from becoming spoiled, and the store atmosphere becomes too stuffy to permit of comfort. Yet no action is taken to persuade the council to take steps to abate the nuisance. The people who suffer should make a move to improve conditions.

Visualize the laying out of a piece of land at Crows Nest Lake as a park and tourist resort. Clean up the underbrush, erect some cabins with modern facilities, provide the attractions necessary for recreation which would induce people to tarry awhile, and pleasure and profit would result all round, particularly pleasure in the knowledge that pleasure is being furnished to others. The Provincial Parks Board has expended money on summer resorts at Sylvan Lake and Gull Lake, and will probably visit Crows Nest Lake this week to inspect it. Local business men should demonstrate to the Parks Board that they are enthusiastic over this proposal and co-operate in every way to accomplish the desired end. From a local viewpoint, with the population living in the Pass towns, there is sufficient warrant for a wise expenditure to enhance the natural beauty and scenic attractions so lavishly bestowed on this favorite location. We are far too modest on the advantages which this spot possesses.

Capt. W. A. Beebe of Blairmore is well worthy of being ranked among the celebrities of the district. He has seen the town and district develop from the hamlet stage into a very important industrial area, and throughout it all has taken an active interest and played no mean part in assisting in its development. Prominent as a representative on school boards and town councils, he still breathes energy and enthusiasm and maintains that optimistic outlook on life generally that is quite refreshing. His record of community service is well worthy of recognition and sets a good example.

The Church and Industrial Relations

Re the Remit from the General Council re the Manitoba Resolution:

We believe that in harmony with the teachings of Jesus, we should proceed as rapidly as may be possible to a creation of an order based on co-operation and service, which would displace the present competitive, acquisitive social order.

In the centre of the thinking of Jesus was, man and his needs, as a contrast, up to the present, the central feature of the economic system is profit.

The present system has now been under trial for a sufficient period to lend itself to fair criticism, and the present unhappy condition of over-production, under-consumption, unemployment and attendant uncertainties, is its condemnation.

We are convinced that in the Father's world there is a sufficient abundance of necessary commodities to meet the needs of his children. The demand of our day is to bring these commodities under Christian control and distribution: a result which finance, under private control, as the connecting link between production and consumption, has failed to secure.

In the meantime, we advocate such methods as unemployment insurance, contributory Old Age Pensions, along with a program looking forward to social control of the means of production, distribution and exchange.

We believe that society should regard enforced unemployment as an intolerable menace, producing an unemployable class, with slum conditions, wastage of human energy and personality, and threatening war or revolution. We believe that Governments should grapple with the problem with energy similar to what would be used in a national emergency.

Nationalize Coal Mines

Drastic Steps In British Coal Mining Industry Are Planned

Rt. Hon. William Graham, President of the Board of Trade, in a speech at Durham, England, said the recently passed coal bill was a Parliamentary step along the road which the British Government intended to follow until the great collieries were the property of the people. His audience, composed largely of farmers, welcomed the sentiments expressed. "We are pledged as a Government to nationalize the mining royalties, and we hope the time will be found in the next session for that bill," Mr. Graham said.

Must Wear Home Products

A new law has been passed in Persia, similar to certain laws passed in England a few centuries ago, compelling every government official, from the highest to the lowest, to wear clothes made of Persian manufacture only. Severe penalties are to be meted out for every infringement of this law.

Interesting Exhibits

Floating Museum Of Byrd's Antarctic Expedition

The City of New York, flagship of Rear-Admiral Byrd's Antarctic expedition, is to go on tour as a floating museum of the Antarctic. Admission will be charged to the public in an effort to overcome the expedition's deficit of more than \$100,000, which continues to mount because of the expense involved in assembling the scientific material brought back by the expedition.

Announcement of the move came from Captain Ashley C. McKinley, in charge of the expedition's affairs in the absence of Admiral Byrd. The ship will go on exhibition at the Ninety-sixth Street pier in the North River, and will be open to the public from 10 a.m. to 10 p.m. On leaving New York it will go to Boston and other New England cities and will then proceed south along the Atlantic seaboard.

"More than a month has been spent in assembling the models and exhibits built by the expedition members during the Antarctic night," Captain McKinley said. "When open to the public the ship will contain the most complete exhibition of Antarctic specimens ever gathered, as well as hundreds of other souvenirs of the expedition."

On view will be a model of Little America, constructed to scale by the American Museum of Natural History; models of the Flying Bennett, the airplane used in flying over the South Pole; models of other expedition "planes"; a model of the City of New York and a replica of a camping scene showing one of the exploration parties.

A printed crepe silk shows how smart it can be in straight silhouette with low-fared fullness. The pointed outline of the hip yoke and the circular skirt flounce, produce a particularly slenderizing effect.

The neckline is interesting in cool open V-shape. The rolled collar and jabot of plain crepe match the background of the print.

The short sleeves with elbow flare are very smart.

Style No. 2574 can be had in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 inches bust.

It's very pretty in printed chiffon voile that will give such excellent service.

Shantung, flat crepe silk, pastel sheer linen and printed batiste are fashionable fabrics for its development.

Aviators Have Trying Trip

Combat Engine Trouble While Flying North Of Port Churchill

After combating engine trouble away north of Churchill, making emergency repairs and carrying out the flight, two Royal Canadian Air Force pilots are back at their base at Cormorant Lake, Mile 42, Hudson Bay Railway. The officers are E. Hickson, flying a Fairchild, and M. B. Barclay, flying a Bellanca. They captured A. E. Crowl, Federal Government official, to the far north to collect data on reindeer pasture.

According to reports from Churchill, the officers were flying about 100 miles north of Eskimo Point on Hudson Bay and about 80 miles south of Chesterfield Inlet when a cylinder locked on the Fairchild. They dropped down in the sea.

The ship "York," plying northern waters, was nearby. The captain offered assistance but the pilots found they could make repairs. They managed to get off the water and limped through the air, finally coming down at Vavane, a small trading post, and base of operations of Dominion Explorers. Vavane is about 100 miles from Eskimo Point. Their destination was the "barrens" about 150 miles west of Vavane. At Vavane they met Alex Nicholson in charge of Dominion Explorers' base. He helped them with spare parts and they flew out into the barrens.

Long Telephone Call

Radiohone Conversation Between South America and Australia

Advices received at New York from Buenos Aires describe a radiohone conversation between Captain Lewis Vancey in an aeroplane and Sydney, Australia.

The connection, which was made from the plane, 5,000 feet above the Buenos Aires airport, established a distance record for telephoning from an aeroplane in flight. It spanned 14,000 miles.

The call was relayed from the radio station at Buenos Aires to Madrid, Spain, thence over land lines to the French side of the English Channel, where submarine cables carried it to England. At Rugby the beam it was wirelessly picked it up for wireless transmission to Sydney.

Lady Willington Takes Interest In Canadian Branch Of Dr. Barnardo's Homes

Her excellency, Lady Willington, has accepted the honorary vice-presidency of the Canadian branch of Dr. Barnardo's Homes, it was announced by the Canadian headquarters of the organization.

Lady Willington is a daughter of the late Lord Brassey, the latter being president of the Barnardo's Homes organization in England at the time of her birth, and a great personal friend of the late Dr. Thomas John Barnardo. Her father took a keen interest in the migration of boys and girls to Canada.

SNOW-TOPPED SALAD

On a bed of crisp lettuce leaves arrange a mound of fruits of various kinds, cut in small pieces. Oranges, pineapples, apples, grapes and peaches are excellent. Berries in season, or small cubes of watermelon or cantaloupe, may also be utilized. Top this with a liberal serving of stiffly-beaten, sweetened whipped cream. Immediately before serving, sprinkle the fruits and lettuce base, liberally, with a syrup made by dissolving four teaspoons of sugar in the juice of two oranges and one lemon.

SWEDISH SPRITZ COOKIES

1 cupful sugar.
1 cupful butter.
2 eggs.
4 cupfuls flour.
1/2 teaspoonful baking powder.
1/2 cup sweet almonds.

Mix all ingredients together in bowl, adding baking powder with flour. Mix with the hands until ingredients are blended, being careful not to work too long. Push through pastry gun. Shape in rings or S shapes. Bake in a quick oven.

Claims Matter Is Weightless

Scientist Gives New Definition Of Weight and Force Of Energy

After delving into philosophical questions as a hobby from a very early age, W. Donald Mitchell, under the nom de plume of "Logus Philotus," has published "The Great Light of Relativity."

In his work, Mr. Mitchell, who was born in Pembroke, Ontario, of Scottish parentage, claims to reveal that "the earth does not weigh so much as once upon a time, weightless," and gives a new definition of weight, and also of the force of energy. He claims to reverse Newton's equation of attraction, and Einstein's space-time-energy theory. He gives other concepts of philosophy in axiomatic form, chief of which seems to be his statement that "knowledge, or intelligence, is the relative, transient, personal and material result from objects and elements of external reality, partially retained in memory—in or on the negative plates or cells of the brain."

The author of this remarkable work believes himself to have made the most remarkable discoveries in recent generations, and thereby set a new standard for philosophy, metaphysics, psychology, and thus also education. "It promises to affect the entire scientific thought of the age," he says. He makes no declaration dogmatically, but states: "I shall be delighted to receive, either personally or otherwise, any criticism for or against any statement, axiom or definition, appearing herein, for the spirit of progress is formed in criticism and abiding investigation."

The Peking Man

Canadian Scientist Has New Theory Regarding Discovery In China

"The Peking Man" was really an adolescent girl, who lived possibly 400,000 years ago, Dr. Davidson Black, Canadian scientist, said, in announcing the discovery of a second ancient skull.

The noted paleontologist, who dug up the skull of the "Peking Man" some months ago, said he had found the second cranium embedded in the rock of the same cave in which he found the first skull.

The second is that of an adolescent male, Dr. Black said, and the measurements further indicated the first skull was that of a girl.

Grape Juice Duty

Special Tariff Item Designed To Meet Foreign Competition

A special issue of the Canada Gazette announces that an order-in-council has been passed bringing into effect the special tariff item designed to meet foreign competition in concentrated grape juice. Grape juice previously was all under one duty. The new duty provides a tariff of 25 cents a gallon with an addition of three cents a gallon for each 0.1 increase in specific gravity above 1.074. It comes into immediate effect.

SAUL "A MAN OF GREAT POSSIBILITIES WHO FAILED"

Golden Text: "Wherefore let him that thinketh he standeth take heed lest he fall."—1 Corinthians 10:12. Lesson: 3 Samuel, Chapters 8 to 11; 13; 15; 16:14-23; 19:9-12; 28; 31. Devotional Reading: Psalm 1.

Explanations and Comments

God's Will Regarding Saul Revealed To Samuel, 1 Samuel 9:15-17. — In the Hebrew the verb "revealed," as the margin of the Bible explains, means literally "uncovered the ear of," and signified the divine Spirit's announcement to the human spirit. "The revelation, which Samuel received the day before Saul's arrival, that a man of the tribe of Benjamin would come to him, whom he was to appoint king over Israel, was psychically based on his constant prayerful, expectant reflection as to how God would establish the monarchy." When Samuel saw Saul on his way to himself whether Saul were the Benjaminite of whom he had been told, and felt assured that Saul was the man chosen of God to be the leader of his people.

"God's voice is of the heart—I do not see." All voices therefore of the heart are God's.

Amidst discern the Voice amidst the voices. Is that hard task that we are born to?

The Meeting Of Saul and Samuel, 9:18-28. — In search of his father's asses (9:1-17), Saul sought the aid of Samuel. He found him on his way to the "high place" where he was to offer sacrifice. Samuel at once set the young man's mind at rest regarding the lost animals, telling him they were found, and then awakened great expectations in Saul's heart by adding: "For whom is all that is desirable in Israel? Is it not for thee and for thy father's house?"

In astonishment Saul answered: "Am I not a Benjaminite, of the same tribe as thyself, and my family the least of all the families of Israel? Wherefore then speakest thou to me after this manner?" This extravagant expression of humility was in accordance with Jewish custom, but, as Alexander Whyte thinks, it seems to be the language of a man whose heart is really touched for the time being with divine grace. It is real humility.

The Anointing Of Saul, 9:27 to 10:1. — As they were leaving the precincts, Samuel bade Saul and his servant on ahead. Then Samuel poured oil upon Saul's head and kissed him. Before this, priests had been anointed by their office, and when Saul was consecrated as king by anointing, "the monarchy was inaugurated as a divine institution standing on a par with the priesthood."

"Is it not that Jehovah hath anointed thee to be prince over Israel?" questioned Samuel. Thus he impressed Saul with the fact that it was God who had chosen him to rule, and to God, therefore, he was responsible for the way he ruled.

No Loss From Pool Guarantees

Wheat Pool Did Not Have To Call On Government For Funds

A special despatch to the Toronto Mail and Empire from Ottawa says: "From no less a person than the chief statistician of the Canadian Wheat Pool's selling headquarters in Winnipeg, government authorities in Ottawa have received the cheering information that, the prairie provinces have incurred no loss from their guarantees of the Wheat Pool's operations."

"Early in the year, when it became apparent that Canada was not going to be able to market her whole crop and that the market price had suffered a severe slump, the three prairie governments put their credit behind the Wheat Pool to the extent of guaranteeing the banks against loss through the advances made to the pool."

"According to information supplied to the Dominion government, there has been no loss. The pool's crop year ended July 15. Everything transacted from July 16 onward is part of the 1930 pool. Completion of the final returns of the 1929 pool is under way, and has progressed far enough to reveal that the pool sold enough wheat above the dollar price to at least compensate for the quantity which had to be sold below that mark—leaving the provincial guarantees uncalled."

"Andrew Cairns, statistician for the pool, was in Ottawa several days ago, securing passports and making preparation for a trip to Russia. He has now departed for that country for the purpose of surveying at first hand the state of wheat growing in the land of the Soviets and determining to what extent Russia is looming as a serious factor in European export wheat supply. Mr. Cairns informed the government of the situation in regard to the guarantees, which, he said, would now expire."

Mediterranean Service

Inauguration Of A New Monthly Service From Canada

Inaugurating the new monthly service from eastern Canadian ports to Gibraltar, Malta, and other Mediterranean ports, the "David Livingstone" will sail from Montreal on or about September 10. This will be followed about October 10 by the S.S. Benguela.

The new service, according to the Department of Trade and Commerce, will consist of special mailships, equipped for cargo and accommodation for 10 or 12 passengers. Owing to the absence of a direct steamship service between these ports, and Montreal or Halifax, Canada has not been able to share in these markets to any extent in the past.

New York now has four airplanes for its police patrol, which will watch out for law-breaking from the vantage point of the air.

CHAPTER XXIV.—Continued.

So, alone at the window, Grandma watched her old friend carried by to his last resting place, followed, it seemed to her, by all those to whom he had ever ministered. Wicked's elite in shining automobiles; shabby divers from the country with faces peering from behind torn side-curtains; farm horses harnessed to well loaded carry-alls or buggies; a long, long line on foot following the others. And last, straggling behind them all, hurrying breathlessly, a woman trundling a baby in a dilapidated go-cart—a baby whom the old doctor had helped into the world only a few months before. Yes, and Wicked's own daughter, thought Grandma. . . . No one had forgotten.

"And God shall wipe away all tears from their eyes," she murmured softly. "And there shall be no more death, neither sorrow, nor crying. . . ."

CHAPTER XXV.

April, month of laughter and tears had come and gone. Spring was "early," according to the old inhabitants and weather prophets. With May the red had left the maples, lilacs were a purple glow, and the pink buds adorned the orchards.

"What a thrilling, beautiful world it is!" mused Grandma, as she walked home from school one afternoon. "It's a crime not to feel light-hearted every minute. I believe I should if it wasn't that John is leaving. Wicked's Grandma will miss him terribly; and so will I."

Yes, in another week the little office would be closed again, and the old bedroom crying for an occupant. John Carter had stayed until a furnace fire was no longer necessary. On that he had insisted. He had been surprised and infinitely touched when Gam Gartfield told him that all the doctor's worldly goods were now his own.

"He was quite bowled over," the little lawyer said to Grandma. "He hadn't the least suspicion of what was in the doctor's will."

"Did Edward leave him everything?" she queried.

"About everything there was—the house and furnishings. All bills were to be settled (there weren't any to speak of), and any unpaid accounts on his books were to be cancelled. Two hundred dollars to Wicked's, for a keepsake," and the rest to John Carter. Yes, the young man was bowled over. Not a great legacy, but it showed that our old doctor loved and trusted him. And of course we all know how he loved Grandma. Wicked will never be the same without him, will it, Grandma?"

Grandma sighed and answered: "Not to some of us; and yet, Gam, it's a wonderful thing to live a long life and then die in the harness before

self in the old rocker. "Jim wouldn't say anything you couldn't see. I'll read it aloud: 'Dear—' " Grandma paused, then looked up at her grandmother with a puzzled frown. "He says, 'Dear playmate.' He never called me that before."

"You've been playmates all your lives, haven't you?" replied Grandma literally. "I think he just means to be friendly."

"Friendly," echoed Grandma. "Well, I guess you're right, Grandma, as usual." Her voice was the least bit hard, and the color had sprung into her face. It was still there when she finished reading. "He's evidently enjoying the fair Clara's visit," she said coldly. "And he's got the California fever, too. I wonder if he's forgotten a New England spring."

He doesn't say a single word about coming back. Well, if Jim Bennett wants to spend his life in a stucco bungalow with a palm tree for shade, he's welcome."

She tossed the letter on the table contemptuously and went upstairs, while the old lady's eyes followed her retreating figure with a blending of amusement and distress.

"I don't want in that letter to upset her no," she mused; then reached for the despised missive and read it through. "Charman," she called when she heard the girl's step upon the stairs, "come here. I guess maybe you overlooked Jim's postscript."

"Postscript?" said Charman, a note of hope in her voice, though her eyes were cold. "Well, what is it?"

"Here," said Grandma, and handed the letter to her irate granddaughter, who, going closer to the window, read:

"Charman, when our old crab-apple tree is white with blossom, will you pick an armful and carry them to the cemetery for Doctor Howe? He told me once that something about these blossoms always reminded him of his Kate—they were so pure and exquisite; and after that I took him a big bunch each spring—used to put 'em in a bowl on the desk in his office, where he'd find them when he came in. I don't want him to miss them now; and you're the only one I can ask who would understand. You do, don't you, Jim?"

"Well," said Grandma, as the girl's hand holding the letter, dropped limply to her side. "I don't do it, rather a boy would think it does the thing like that, than to have him appreciate small-paned windows. I don't do it."

She paused, looked up, and her lips broke into a knowing smile. She was talking to an empty room.

Radium Paint On Roads

To keep motorists on her highways it has been suggested the trees bordering France's main roads should be painted with radium, or some phosphorescent material. In some parts of France the trees at crossroads are whitewashed to make them stand out during the night, but now the motorists are asking for illuminated radium-painted roads.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the recipe on the wrapper; mild and bland as its taste. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbances, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

"You could have opened it, of course, Grandma," said Charman, bringing the letter and seating her-

Millions For Charity

Fortune in New York Real Estate To Be Given To The Poor

A fortune in real estate estimated at upward of \$100,000,000, which three generations of Wendels have spent their lives amassing, is to go to charity when a frail little old lady, last of the Wendel line, dies.

The will of Mrs. Rebecca Wendel Swope, who died July 20, was filed in New York and provides for that disposition of the Wendel holdings after the death of her sister, Miss Ella, now 80.

The Wendel family for years has been an enigma to the rest of New York. Living in an old brownstone mansion at Fifth Avenue and 38th Street, they resisted all progress, lived in almost monastic simplicity and refused to sell any of their real estate holdings.

The family fortune was founded in the 19th century by John Wendel, a fur trader and contemporary of a first Astor. With the turn of the present century there remained only seven grandchildren, six sisters and one brother. The brother, who also bore the Christian name John, forbade his sisters to marry, saying that no man was good enough to marry his sister. Swope is the only one who married.

One, Georgiana, tiring of the restricted life, fled to Europe and showed herself publicly in hotels and other public places. On her return her brother had declared intemperate, and she was committed to an asylum. She finally won her freedom and sued her brother for \$50,000, but dropped the suit and returned to the old Fifth Avenue home. There to live out her life behind closed shutters. She died in 1928.

One by one the sisters passed away, until now only Miss Ella is left. As did her sisters, she dressed only in black satin, cut in the mode of 40 years ago, and sewed by her own hands. She never leaves the house, so far as is known, except to walk her aged, fat poodle in the yard behind the house, known as the million dollar dog-run because of the value of the property and the fact that it is used for no other purpose.

Would Control Grain Prices

Central European States Consider Problems Of Markets

Negotiations for regulation of grain prices resulting in Poland's suggestion that the League of Nations, Estonia, Latvia, Lithuania, Hungary, Rumania and Czechoslovakia join her in an agreement were viewed at Berlin as of wide European significance rather than of world wide importance.

The problem of the markets concerned is especially with surplus rice stocks. The Danube region crops were described as promising good yields for 1930 and the Rumanian wheat crop is reported some 700,000 tons larger than last year. In Yugoslavia, however, the crop was expected to be some 600,000 tons less, although both Hungary and Bulgaria predicted increases of about 300,000 tons each.

Sinking In The Sea

Ireland In Danger Of Disappearing Say Scientists

The Royal Irish Academy, Ireland's most learned body, has been debating the suggestion that Ireland is actually sinking into the sea.

The marine erosion especially on the East coast has become serious. A learned engineer pointed out that during the past winter at many points there has been a marked lowering of the beach level.

The director of the State's geological survey said this coast department was not merely local, but part of a depression affecting Western Europe. The land is sinking at present because, while both land and sea are rising, the sea is rising more rapidly. The sinking is a few centimeters per century.

Italy and Volcanoes

Italian Peninsula Subject To Frequent Seismic Disturbances

Another earthquake has visited Southern Italy, destroying towns and leaving several hundred dead in its wake. The disaster is not so severe as others which have occurred in this area, but it is none the less a blow to those whose homes have been destroyed, or who have been bereft of kin and friends.

The lower portion of the Italian peninsula is of volcanic origin and subject to frequent seismic disturbances, but no part of the country is exempt. Last year the City of Bologna, in the north, experienced twenty-two earthquakes in a single month. Rome was badly shaken about two and a half years ago. No serious damage resulted in these instances, but in March, 1928, a number lost their lives in a disturbance of unusual violence in Lombardy. No earthquake, however, compares with that of Dec. 28, 1908, which virtually destroyed the important City of Messina and many towns in Sicily and Calabria (the toe of the Italian boot). The number of lives lost in that disaster was officially estimated at over 77,000. Only the Japanese earthquake of 1923, which resulted in approximately 100,000 deaths, compares with it in destructiveness. —New York World.

Will Preserve Historic Objects

Dinosaur Tracks Are Found In Canyon Of Peace River Country

The remains of British Columbia's earliest inhabitants, who died several hundred thousand years ago, are to be preserved by official decree. Under an order-in-council the government declares dinosaur tracks and fossil bones of ichthyosaurs found in the canyon of the Peace River last year to be historic objects. To remove or destroy them in any way is a serious offence. These relics, discovered by railway engineers during a survey last summer, are regarded by scientists as highly important since they show the prehistoric monsters of the prairies had penetrated into British Columbia by following the course of the Peace River. No such remains had been found in British Columbia before, though the Alberta foothills are rich in such material.

An Elaborate Clock

One Of The Largest Clocks In The World To Be Built In Sicily

The immense and beautiful cathedral at Messina (Sicily), now under construction, is to have one of the largest and most elaborate clocks in the world in its bell tower. This clock will have an illuminated dial which will show the time for great distances both day and night and is to be equipped with other mechanism which will show the positions of the celestial bodies and their phases. Other devices will indicate the ebb and flow of the tides and changes in wind weather and temperature. A handicrier upon the summit of the tower will cross at dawn and sunset, and at noon a lion will emerge from a lofty recess and roar.

Chimes will mark the passing of each quarter, and an infant, a youth, a soldier and a septuagenarian will appear successively each 15 minutes. Bronze figures of Sicilian heroes will strike the hours, and other symbolic figures, also of bronze, will mark the season and the month. The clock is said to be the most intricate and inspiring work of man yet devised and will be one of the chief wonders of a world long accustomed to the marvellous—Il Gazzettino, Venice.

"For He hath said, I will never leave thee nor forsake thee."—Heb. xiii. 5.

O Love Divine, whose constant beam shines on the eyes that will not close, And waits to bless us while we dream Thou art with us, because we turn from Thee.

Nor bounds, nor climes, nor creed Thou knowest:

Wide as the universe favors fall: The white wings of the Holy Ghost Stoop even or unseem or the heads of of —John Greenleaf Whittier.

Homing Pigeon Had Stamina

Although Badly Wounded Makes Escape Flight To Home

Making a tough flight from Moose Lake to Cormorant Lake, base of the Royal Canadian Air Force, Mile 42, Hudson Bay Railway, a homing pigeon badly chafed to pieces managed to get to home before it collapsed. The bird, along with two others, was in a hamper aboard one of the patrol planes which stopped at Moose Lake. The hamper was removed for a moment, and some hungry dogs made a raid on it. They killed two birds and bit through the neck of the third one, which managed to get away. It reached the loft 24 hours afterwards, a flight that should normally take less than an hour. Frank Bradley, pigeoneer of the Air Force, sewed up the wounds. The carrier will live.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worms, and can be fully relied upon to expel worms from the system and abate the suffering that attends their presence. They are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

London Health Records

London expects 1930 to be one of its healthiest years ever known. In the first four months deaths numbered 20,858, a decrease of 12,000 from the same period of 1929. Deaths from influenza decreased from 2,863 to 208. The exceptionally mild winter is given credit for the improvement.

Four Doses Relieved Bad Attack of Cholera

Mr. W. J. Cooper, Maugham, Alta., writes:—"A year ago last spring I arrived in Canada with my family, and one of my boys, aged six, was suffering very much with cholera. When we arrived I had a few hours to wait, and told one of the attendants at the station about it, and he asked me if I had ever tried Dr. Fowler's Extract of Wild Strawberry. I had never heard of it, but he said if I could get it in Winnipeg, I am pleased to say I had only to give the child four doses and he got well and was quite cheerful by the next morning."

SAFETY.. at ANY speed

With the new Firestone Heavy Duty Gum-Dipped Balloon Tires you have a wide margin of safety at ANY speed. Built in advance of today's car requirements, they withstand rougher usage than any car on any road at any speed, can give them.

Firestone Heavy Duty Balloons are made of Gum-Dipped cord construction—the strongest and safest method known. They have a deeper safety tread, extra side-wall thickness and two extra plies of Gum-Dipped cords just beneath the tread to absorb road shocks. They are the strongest, safest, toughest tires that Firestone has ever built.

Make your car safer for travel. Equip it with a set of new Firestone Heavy Duty Balloons. See your nearest Firestone Dealer today.

Local News

Mrs. J. Houghton and daughter Hilda, and Mrs. Ernest Houghton, left by car for Calgary to visit relatives.

Mr. and Mrs. W. L. Rippon returned on Sunday from their auto trip to Ontario. They took six days on the return, visiting many places of interest and completing their tour with a four hours visit at Waterton Lakes Park, arriving home in the evening. They returned via the States, coming through Minneapolis, Fargo, N.D., and west to Glacier Park, thence north into Canada.

Sunday is a day for celebrating in West Coleman. Sometimes it takes a violent form, and one man gave another a black eye and other injuries which resulted in a police court case on Monday. The assailant was fined \$50 and costs, amounting to about \$71.00 in all, or three months in Lethbridge jail. The row was caused through the complainant having, it is alleged, bought some phonograph records from the accused, which he had not paid for. At the time of the assault the complainant was under the influence of liquor. An evidence of the assault he appeared in court with two lovely black eyes just beginning to assume a purple hue.

While the Canadian Chamber of Commerce is completing plans for its official tour of China and Japan leaving Vancouver October on S.S. Empress of Russia, an important group of Japanese manufacturers and merchants is due to arrive at the same port July 25 on board the Empress of Canada for a tour of Canada and the United States.

To remove the prejudices of men, women want to be regarded as their partners and to be rewarded on merit, regardless of sex, is the view of Miss Helen Cleveland, of Toronto, holder of a "man's" job with an internationally known bond house and recently elected president of Zonta International at the 10th annual meeting of this worldwide women's organization. With forty members of that body she is taking the Alaska trip aboard S.S. Princess Louise.

The greatest living golfer is Bobby Jones and the most enthusiastic golfer in the world is probably the Emperor of Japan, according to Walter Hagen, colorful U.S. golfer just back aboard S.S. Empress of Russia after a tour of Australia, Japan and China. Both Hagen and Kirkwood who accompanied him, voiced high appreciation of Japanese golf courses.

Major Ian Hay Beth, noted author of "The First Hundred Thousand" and many other plays and novels, arrived recently at Quebec aboard S.S. Empress of France for a four week sojourn in the Dominion where he hopes "to fish and do nothing, although I may pick up an idea for a play or something, for one is always on the look out for likely material."

"Land of Heart's Return" is the description of New Brunswick by Samuel Hecht in his Tourist Topics column in the New York American, because it "always turned out to be nicer in reality than anybody said it was on paper."

A million dollar contract has been offered the Torbanite Products Co., Ltd. of New Glasgow, for Torbanite residue as it comes from the Ginet retort. This order comprises 250,000 tons at \$4 a ton and becomes effective sixty days from July 5.

Nova Scotia fisheries in 1929 had a product valued at \$1,455,491 according to a report issued by the Dominion Bureau of Statistics. Value of the preceding year's catch was placed at \$1,504,583.

Prospects are that Canada will this year advance into second place among the gold-producing countries of the world. South Africa holds first place and United States, second. Last year the value of gold produced in Canada was approximately \$40,000,000. This year it is expected to be about \$50,000,000.

A short course for departmental judges was held recently at Lethbridge. Over 125 were present including judges of ploughing matches, standing field crops, heavy and light horses, beef and dairy cattle, and sheep and swine. Classes were started some 15 years ago and are primarily to get judges to gather for purposes of demonstration so that a uniform standard may be maintained for judging and shows and competitions.
